Reason for Serving / Educational Philosophy

It is with great pride that I am able to represent the Hempfield community and the many families it serves. My mission is to foster a school culture in which student needs are met, student interests are cultivated, faculty and staff are valued and appreciated, and the overall student and staff experience is overwhelmingly positive. Decisions will be made that are in the best interest of the students and that demonstrate good stewardship of community resources. Our students should leave Hempfield School District with a strong educational foundation propelling them to pursue their dreams and aspirations. Moreover, our staff should feel proud to be part of Hempfield School District.

School Board/Committees (past and present)

- Current Board President 2022-2023
- Buildings and Grounds Committee
- Education and Programs Committee

Paid for by the Hempfield Area Republican Committee
