

Kari STEINBACHER

Kari is a 12-year resident of Lampeter-Strasburg School district and a mother of two L-S students. She has a Masters in Educational Leadership, is a former elementary educator and currently a small business owner. Kari was appointed to the Board at the end of 2022 and sees being on the board as a blessing. Her background in education and business has helped her hit the ground running. Kari is grateful for the leadership of the current board and in her experience as an active member of the Board believes that everything the Board does revolves around what is best for all students. Rather than letting societal trends and politics drive education, Kari believes the L-S School board focusses on making decisions on what is best for the district, its students, teachers and residents.
